Leading UK Vinyl Manufacturer

# Timeless appeal

**Designed to enhance the outdoor lifestyle, Fensys supply the very highest specification, low maintenance UPVC decking and verandas for Park Homes, Static Caravans and Gardens.**

- 10+ years durability from a British company with over 30 years experience in thermoplastics
- A Fensys veranda does not need sanding, painting, staining or preservative treatment and has greater resistance to warping, rotting, cracking, splintering and staining than traditional wooden decks
- A superior finish with a choice of 3 balustrade style options and 7 fade resistant colours
- Non flammable and exceptionally strong with a galvanised metal sub-frame option
- Slip resistant whether dry or wet, our bare foot friendly deck boards are available in a choice of stylish natural colours.
- Tongue and groove deck boards with no exposed fixings complete the modern stylish appearance
- Professionally fitted and supplied through our network of approved installers
- Standard or bespoke veranda designs, free expert advice, free pre-survey estimates

# Design engineered

Here at Fensys Leisure, we pride ourselves on our technical expertise, providing assistance from the design phase through to the installation of the veranda.

With our kit-forming service you can be assured that every detail is considered when designing your perfect veranda. All veranda kits are designed using the latest Computer-Aided Design (CAD) software to ensure all components meet our customers' specifications.

As with all structures, a critical factor is the quality of its foundation. The Fensys system is available with a galvanised steel sub-frame that will not rot, warp, twist or crack. Engineered to last, even our brackets are made from steel. This creates an exceptionally strong base that is non-flammable and durable for many years.

Our network of approved installers can offer advice on both traditional and steel sub-frame solutions and give guidance on which option best suits your application and needs.

# The natural look

**MARKET LEADING INNOVATION** from Fensys and its range of Premium deck boards. Offering defining quality and an unrivalled specification, this advanced deck board is designed to give a premium appearance whilst being engineered to meet your needs for many years of untroubled enjoyment. **SIMPLY THE BEST.**

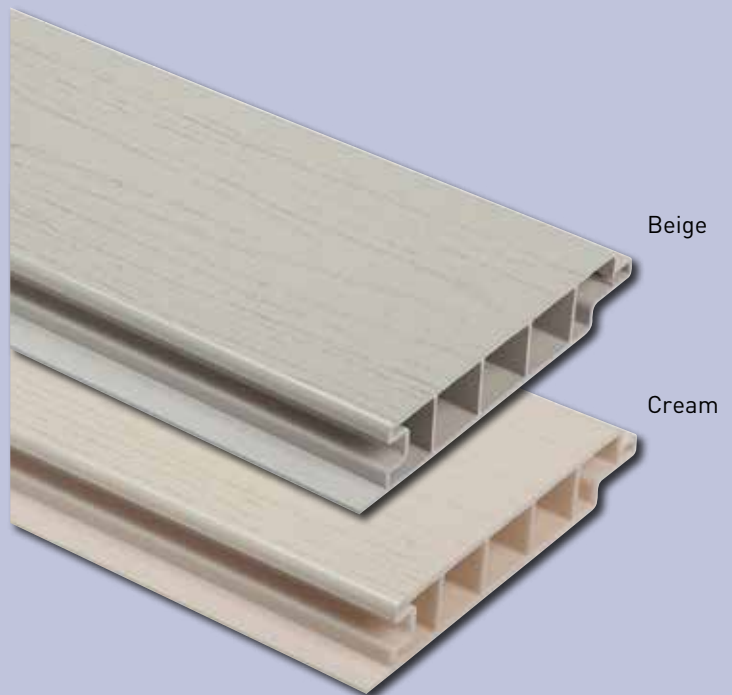

## Premium EXCEL polymer deck board

A 100% polymer board produced with an advanced engineering grade thermoplastic cap layer giving exceptional weatherability. This board combines multi colour processing technology and a dual wood grain pattern giving excellent slip resistance and an unparalleled natural appearance

## Premium ECO polymer deck board

A 100% polymer board with double credentials, incorporating higher levels of recycled material and a more efficient high grade cap layer, this board provides excellent weatherability and slip resistance whilst having a greener recycled element

## Natural Plastic Composite Deck board

Manufactured using a 60% wood 40% polymer mix, this double sided deck board has a traditional lined face and a wood grain patterned side. The material offers greater resistance to rotting and is more slip resistant than wood whilst retaining a natural appearance that will age and fade gracefully but needs no preservative treatment, staining or coating.

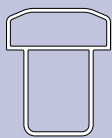

# Style & aesthetics

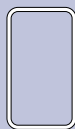

Fensys Balustrade and profiles are manufactured using high grade PVCu that offers a class 1 fire rating. As with all our PVCu products, the problems associated with traditional wooden balustrade are removed, leaving the customer with a virtually maintenance free product that is both durable and aesthetically pleasing.

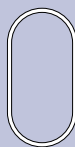

## Handrail Style Options

Georgian Rail

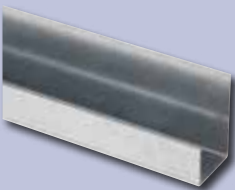

Madison Rail

Contemporary Rail

## Handrail Reinforcement

To maintain continuity Fensys handrails are available with a galvanised steel reinforcement option which allows for increased rail spans, improved strength and reduces the possibility of deformation.

## Handrail Colour Options

## Picket Options

The Fensys range incorporates a variety of handrail and picket style options to suit every customers design ideas.

Bowed pickets  
Available in white, cream & beige

Contemporary pickets  
Available in all colours

Madison pickets  
Available in white, cream & beige

# The finishing touch

As with all homes, people like to create an environment that reflects their own tastes and ideas. The Fensys system has a range of accessories that gives the customer the freedom to express their ideas and create a truly unique veranda.

## Caravan and Veranda skirting

The Fensys PVCu skirting system not only improves the appearance of your home and veranda, it could also save money on your heating bill. Unlike wooden alternatives, Fensys skirting is fire retardant providing a safer maintenance free solution which is economical and easy to install.

The system comes in a range of attractive colours that can prevent the build up of debris, deter rodents and increase weather protection for your home.

## Glass Panels

Available in clear, bronze or smoked glass

## Post Lights

Available colours: white and black

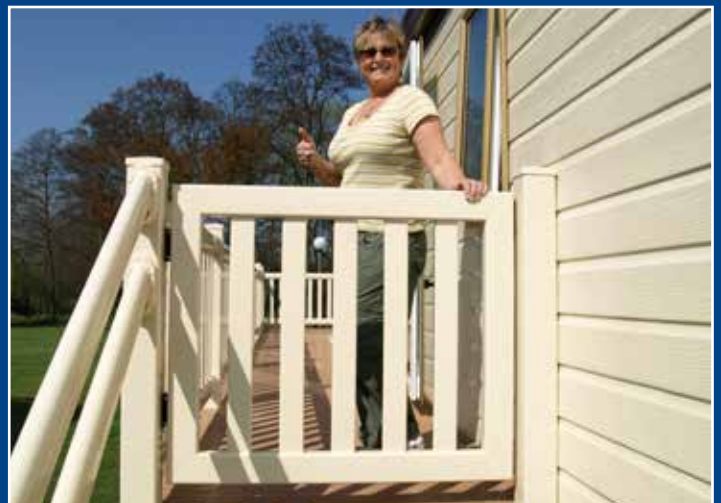

Globe lantern

Coach lantern

## Gates

Enhance your veranda with the addition of a welded gate that matches the colour and style of your veranda. The Fensys system uses self-close hinges to ensure the gates are not left open which provides added security and prevents young children and animals running free.

# Adaptable solutions

Garden decks, porch steps, wheelchair access ramps, pontoons, jetties and everything in between. Our expert design engineers and installation partners will ensure your ideas become reality.

Whether you are looking for a relaxing space, an entertainment area or a practical commercial application, the versatility of the Fensys system ensures that we can deliver on customer expectations and create an engaging solution.

### Warranty

Fensys security from our 10 year limited warranty

### Product Maintenance

The Fensys system requires very little maintenance with no painting, staining or sealing necessary. Just a little soapy water will suffice for the occasional clean.

### Fire Safety

Fensys polymer materials have been tested by Fire Technology Services (a UKAS accredited company) in accordance with BS 476: Part 7: 1987. Our material, specifically rigid PVC exceeded and was certified to the requirements of BS 476: Part 7: 1987 (as amended) Class 1.

### Environmentally Friendly

Utilising co-extrusion technology and our own in-house recycling centre the majority of Fensys products are manufactured with a high grade polymer outer layer and a partially recycled core.

### Installation

Fensys Leisure can cover the whole of the UK through its extensive network of approved installation partners. Our network aims to provide a professional blue chip approach with a localised installation service.
